📱 Tickets.com Mobile Ticketing Solutions

Tickets.com Mobile Ticketing Solutions:

As mobile web adoption continues to surge, companies worldwide realize the importance of providing customers a successful experience when going to their sites from mobile phones - even if the mobile experience is limited or done in phases. The mobile site is now analogous to the web site as the hub of your interaction with customers' mobile phones.

ProVenueMobile™

Expand your reach by making tickets available for purchase through mobile devices. Now you can offer customers the ability to complete a ticket transaction from a mobile phone. Customers are no longer limited by time or place. Mobilizing your website - including event listings, venue information, and purchase process - offers your customers the ultimate convenience: the ability to buy your tickets anytime, anywhere!

Tickets@Phone®

Send paperless, barcoded tickets directly to your customers' mobile phones. Tickets@Phone are redeemed at your venue directly from their mobile phone display through the use of a barcode scanner.
