Buying tickets for **Intrust Bank Arena** events will be easier with the addition of a mobile phone-based purchasing option.

Tickets.com is bringing to Select-A-Seat, the arena's authorized ticketing agency, **ProVenueMobile** and **Tickets@Phone**. The system gives people more options to purchase tickets for arena events. Tickets also can be purchased online or at Select-A-Seat outlets such as **Dillons** stores.

The mobile option will be available for all Intrust Bank Arena events, **SMG**, the arena's management company, announced Monday. ProVenueMobile and Tickets@Phone are available through [www.selectaseat.com](http://www.selectaseat.com).

"As a modern venue, we're pleased to be able to offer the latest technology for ticket purchasing and delivery," said Chris Presson, the arena's general manager, in a written statement. "This is an added customer convenience."

Tickets.com enabled ProVenueMobile™ and Tickets@Phone® to cater to the growing consumer demand to use mobile phones that can do everything home computers do.

Customers who purchase tickets via the mobile sites will be offered options for ticket delivery, including will call, mail, print at home or mobile delivery to their cell phones, where they will receive a secure, digital bar-coded picture message that serves as their ticket.

The arena's grand opening is scheduled for Saturday. Country singer Brad Paisley will be the arena's opening act on Jan. 9.
